4 required Connects(120 available)

We have a big exhibition, and we have 3 kinds of form we want to create, Exhibitor, Visitor and Media. Each form has its own fields. We want to create high standard form according to design provided, to be fast and ability to be stand alone or embed in other website.

web interface:

- User to fill up his data and upload requested documents .
- after he click submit to be redirect to be that his form has been successfully sent

Admin part :

- to check new entries list in easy view lists .
  - Approve, Reject entries with ability to write reason to reject once rejected.
  - Once application approved. the registered person to receive an email with specific format such as " Dear FirstName Lastname" etc with his registration number.
  - Attached printable PDF including Barcode with registration number and name and some other instructions about how to reach exhibition map and how to get accreditation card to be attached in the email.
- The admin should be easily sort out new pending submissions which need to be approved or rejected, and can make list of already approved or rejected submissions, and can export excel reports. and to easy download attachments such as ID's

I attached herewith 3 forms , and 1 confirmation email template which is to be included as email content it self and as PDF printable attachment as well. Media and exhibitor confirmation will be also same as visitor confirmation email.

Forms will be host at event organizer servers , developer to help install as well if needed.

Kindly provide some similar forms of your previous jobs.

**\$500**
