I propose to publish a business cartoon magazine targeted at Indian business owners and corporate managers. The first issue has only about 15 pages, one cartoon each page each for advertising, digital, sales, leadership, etc. It is purely digital/mobile-first, a monthly and the first issue is scheduled on April 10th.

It is totally free for readers.

Since I am totally focussed on content creation, I need someone to advise me on the technical issues, e.g. choosing the right mobile publishing platform, about creating a website at all and other technical issues.

Let me know how you can help.

Regards

Ramesh
