I'd like to get this done within the next few hours. Immediate hire!

We'd like to get a pixel-perfect HTML/CSS with a high quality code with the attached sketch file.

The canvas in this sketch file is currently 3240px in width, but we'd like to support for 1280px in width and larger displays.

For all displays larger than 1280px, we need to simply add the margins left and right.
